Beautiful Gallery Card (left):

- Mossy Meadow card base 5 1/2" x 8 1/2", scored at 1" and 5 1/4"
 - Fold & burnish the 1" score of the card base to the back and adhere together
- Front panels:
 - Color that coordinates with inside designer series paper – 3" x 5 1/4" (backing panel)
 - Mossy Meadow card stock – 2 3/4" x 5" – this piece you will use to "die cut" the image as shown on the card. This die does not completely cut out the image just parts for a more dimensional look when adhered to the backing panel
 - Adhere these 2 pieces together and then directly to card front
- Inside designer series paper – 5 1/4" x 6", scored lightly at 3"
 - Fold lightly with the image you want to see on the inside
 - Adhere ONLY the outside left and right edges to the card base (I found it easier to adhere the right side, have adhesive on the left and close the card to adhere. There is NO adhesive in the middle of the designer paper, only the ends).
